

SHOOTERS WHO RELOAD WITH RELODER 10X™ ARE A VERY CLOSE GROUP.

If you take pride in your accuracy, Reloder 10X™ Powder from Alliant will give you a lot to be proud of. Developed for the requirements of small caliber bench rest and varmint shooters, clean-burning Reloder 10X Powder delivers premium quality, superior consistency and outstanding performance. With minimum copper fouling and optimum velocity,

Alliant 10X is The Powder of Choice in light bullet 223 Rem, 22-250 Rem, 6mm BR and other small caliber loads.

Reloder 10X is so new it hasn't had time to become one of our best selling powders yet. And that's as it should be. After all, when we created 10X, large groups were the last things we were aiming for.

LIKE YOUR FREEDOM TO USE THEM, ALLIANT POWDERS ARE MADE IN AMERICA.

Serious reloaders have known it for over 100 years: For consistent, lot-to-lot performance Alliant Powders can't be beat! And now, Alliant powders are better, cleaner-burning than ever before. Accurate, dependable, affordable—American-made Alliant Powders. Proudly on display at better sporting goods retailers, nationwide.
