#### *S&W X Frame Handgun Mounts*

When it comes to the massive framed, big bore handguns of Smith & Wesson's X-Frames, recoil is a significant factor. And to handle that recoil, Weaver Rings and Bases steps up to the challenge with the introduction of the new Weaver nickel-plated Smith X Frame Bases—rugged mounts designed specifically for these powerful handguns. Constructed from steel and nickel-plated for the ultimate in durability, these new handgun bases withstand the greatest muzzle velocities on earth to keep scopes zeroed and hunters in the hunt.

#### Features & Benefits

- Nickel-plated for non-corrosive, all-weather use
- Steel construction for rugged performance
- Engineered specifically for the Smith & Wesson X-Frame revolvers
