OPTICS—SCOPES

TR one Series

Nitrex™ Optics is pleased to present an extension to their original line-up of tough and rugged riflescopes. Both the 3-9x42mm and 6-20x50mm AO scopes in the TR one series contains all the same great features of the originals but now come with the option of a new Trex Multi-Plex ballistic wire reticle.

Features & Benefits

- Trex Multi-Plex wire reticle for bullet drop estimation and precise shot placement
- 1" tube, one-piece construction
- TruCoat™ fully multi-coated lenses
- Nitrogen purged tubes
- Fogproof, waterproof, shockproof

Part No.	Description
94565	3-9x42mm; Trex Multi-Plex Wire Reticle, Matte Finish
94583	6-20x50mmAO; Trex Multi-Plex Wire Reticle, Matte Finish

OPTICS—SCOPES

TR two Series

In response to last year's acclaimed introduction of the Nitrex™ Optics TR one series, Nitrex now unveils the next generation of riflescopes. The TR two series continues the tradition of tough and rugged scopes designed for premium big game hunters and features multi-coated lenses, ¼ MOA adjustments and fogproof/waterproof/shockproof performance. These new scopes also boast new reticle offerings such as glass etched EBX (Enhanced Ballistic X), Fine-X with dot and illuminated reticles (on limited models). An expanded magnification selection is the cornerstone of the TR two series with scopes ranging from 2-10x42 to 4-20x50mm.

Features & Benefits

- 5x magnification
- Japanese premium glass and manufacturing
- Wide range of magnification options/models
- Side focus parallax adjustment (except for 2-10 models)
- Reticles available in TrexPlex™, Fine-X w/ dot and EBX (Enhanced Ballistic X)
- Argon purged tubes
- 3-position pull-up turrets (no caps)
- 1" tube, one-piece construction

Part# Description

OPTICS ACCESSORIES

TR two—4" Sunshade

Shield your shot from the distracting rays of the sun with the 4" Nitrex[™] Sunshade. For use on the TR two 42mm and 50mm offerings, this sunshade blocks out glare and brings your target into clear focus no matter what angle the sun is at. Made from a rugged aluminum and treated with a matte black anodized coat finish to match your TR two scope, the sunshade screws into the objective to provide a welcome relief to shooters.

Features & Benefits

- Aluminum construction with matte black anodizing
- Fits TR two riflescopes with 42mm and 50mm objectives
- Screw in for rock solid hold and sturdy service
- 4" length provides shade from even sharp sun angles

Part No.	Description
94655	4" TR two Sunshade; 42mm—black
94656	4" TR two Sunshade; 42mm—silver
94657	4" TR two Sunshade; 50mm—black
