RELOADING GEAR

Bullet Feeder—Pistol Kit (Progressive Press)

Designed to fit on most 7/8"-14 threaded progressive presses the new RCBS® Pistol Bullet Feeder Kit features an 110VAC operated collator unit that orients the bullets to drop into the feed mechanism. The hopper holds approximately 200 bullets. The kit contains adapters to load 9mm/.38 Spl/.357 Mag, 10mm/.40 and .45 ACP jacketed/FMJ pistol bullets. Load rate increased at least 50%. NOTE: Not for use with lead bullets, jacketed or FMJ bullets only.

Features & Benefits

- Increase load rate by 50%
- Hopper holds approximately 200 bullets
- Bullets are oriented to drop directly into feed mechanism
- Adapters to load 9mm/.38 Spl/.357 Mag, 10mm/.40 and .45 ACP jacketed/FMJ pistol bullets
- Adjustable collator height
- RCBS Two year warranty

ACCESSORIES

AmmoMaster™ Chronograph

Introducing the RCBS® AmmoMaster™ Chronograph. This stylish self contained chronograph offers all the features that you would expect from RCBS. Whether you are checking the velocity of your arrows, paintball gun, favorite hunting rifle or seeing if your pistol load makes major Power Factor, this is the unit for you.

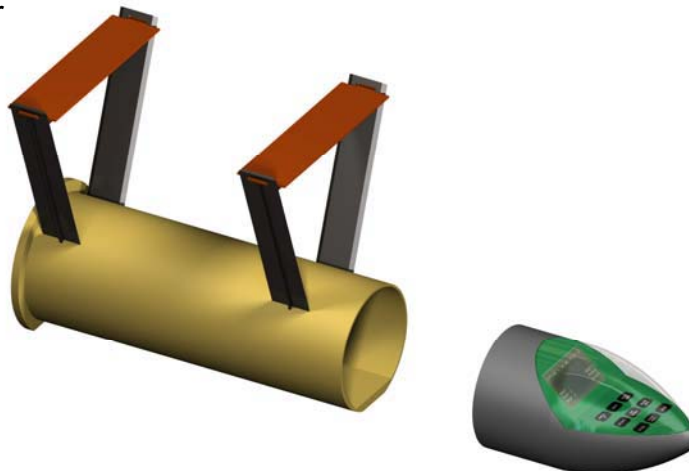

Forgetting to bring your diffusers and supports is a thing of the past as all the parts store neatly into the AmmoMaster housing. The detachable keypad display has a 20' cord that allows you to edit the string and not have to use binoculars to see the velocity. The display shows you the last velocities recorded.

The AmmoMaster Chronograph has a velocity range of 50-7000 feet per second and will also measure in meters per second. The memory is capable of storing 100 velocities in 10 strings of 10 shots each. The edit function allows you to delete a shot(s) and display the following functions: average velocity, high, low, extreme spread and standard deviation.

Features & Benefits

- Self contained carry case
- Detachable keypad display
- 100 shot memory
- Velocity range 50-7000 feet per second and meters per second
- Operates on one 9 VDC battery (not included)
- Standard camera tripod mounting
- RCBS one year warranty

CASE PREP

.50 BMG Carbide Primer Pocket Uniformer

Designed to be used with the RCBS® Accessory Handle or on the RCBS Trim Mate Case Prep Center, the .50 BMG Carbide Primer Pocket Uniformer utilizes a carbide cutter to square the bottom of the primer pocket and uniform the primer pocket depth. This allows the handloader to easily seat primers to a consistent depth for reliable ignition.

Features & Benefits

- Compatible with RCBS Accessory Handle and Trim Mate Case Prep Center
- Carbide cutter squares off bottom of primer pocket
- Carbide cutter ensures uniform primer pocket depth
- Engineered to provide consistent seat depth and reliable ignition
- RCBS Lifetime warranty

CASE PREP

.50 BMG Military Crimp Remover

Designed to be used with the RCBS Accessory Handle or on the RCBS Trim Mate Case Prep Center, the .50 BMG Military Crimp Remover cuts away the primer pocket crimp found on military .50 BMG brass, allowing the handloader to easily reprime their cases.

Features & Benefits

- Compatible with RCBS Accessory Handle and Trim Mate Case Prep Center
- Removes primer pocket crimp on military .50 BMG brass
- Ideal for repriming .50 BMG cases
- RCBS Lifetime warranty
